PROFILE

Enthusiastic Junior Full-Stack Developer with a strong emphasis on frontend technologies and UI/UX design, complemented by hands-on experience in backend development. Having worked extensively on school projects, including a recent client-based project, I have developed a solid foundation in creating responsive and user-friendly applications. My experience spans both frontend development and backend integration, allowing me to build comprehensive solutions and contribute to all aspects of the development process. With a keen eye for design and a commitment to delivering high-quality results, I am eager to leverage my skills in a dynamic team environment.
